WHAT IS AN AP SCHOLAR?

An **AP Scholar** is a student who receives an award from the College Board for outstanding performance on several AP exams. The different award levels are described on the left side of this poster. With the AP Scholar Awards, the AP Program recognizes high school students who have demonstrated outstanding college-level achievement through their performance on AP Exams.

AP classes offer the opportunity to earn college credit. Many universities give credit for qualifying AP scores. Taking AP exams allows students the chance to save money and get a head start on their degree while still in high school.
