CAMPUS IMPROVEMENT & EXPANSION

Kyle Field

Part of the Campus South Athletic Complex project includes the creation of two main archways that will lead students, families and visitors to the newly turfed athletic fields.

Both our football and soccer programs have achieved outstanding championship records - football with 11 state championships and soccer with a eight state championships.

To recognize the athletic excellence achieved by our state championship teams and two legendary coaches, we will designate each field in this project in honor of the outstanding work that has been done throughout the years.

The entrance to the field from West 30th Street will be named Kyle Field in honor of English teacher, Head Football and Track & Field Coach Chuck Kyle '69; the entrance to the field from West 29th Street will be named McLaughlin Field in honor of Theology Department Chair and Head Soccer Coach Mike McLaughlin '85. Both names will be constructed in the archways to the fields and a plaque will be placed near the archways to commemorate the state championship teams and their support of the project.

This project will significantly impact our campus and our neighborhood while honoring two Saint Ignatius legends.
